Guaranteed  
for 3 years

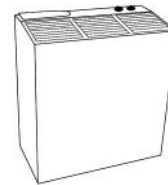

Also take advantage  
of PLUG'N'GROW's  
skilled technical  
support team  
available  
7 days a week!

Heating

Cooling

Humidifying

Dehumidifying

### The iGS-111

- Intelligently manages 4 actions: heating, cooling (AC or fan), humidifying and dehumidifying.
- Prioritizes actions according to a logical sequence! No more need to coordinate many controllers together!
- Allows temperature and humidity's differential adjustment for:
  - A precise comfort zone for plants;
  - Avoiding contradictory actions like heating and cooling at the same time;
  - More energy savings;
  - A better durability of the equipments.
- Feeds up to 30 amps of controlled equipments (110-120V; 2 separate circuits needed).
- Ready to use, just adjust your set points!
- Offers a 24 hours log to know your garden's conditions.
